Watch how to assemble super and brood chamber on our YouTube channel

SUPER – BROOD CHAMBER

Suitable for Commercial, Smith, Langstroth and Dadant Hives

Kit Consists Of:

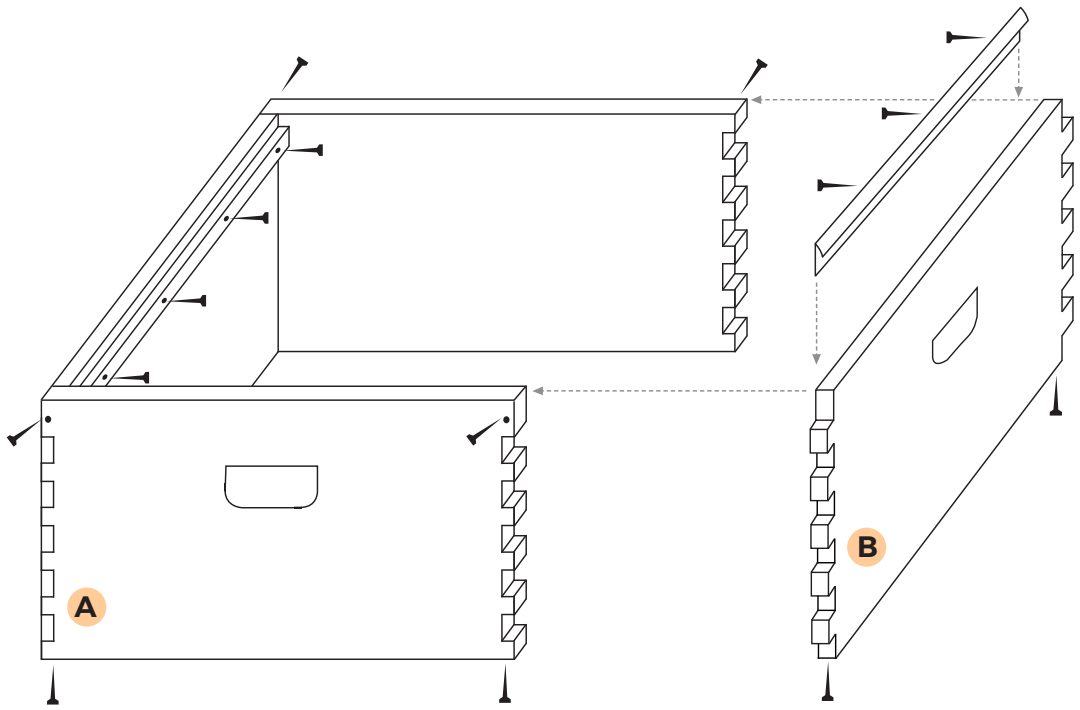
2 x Plain Side piece (A)
2 x Plain Side piece (B)
2 x Runner
1 x Packet 1 ½ " Nails

Essential Tools:

Hammer
Pinchers
Ruler

Advisable Tools:

2 x 2' Sash Cramps

ASSEMBLY INSTRUCTIONS:


1. Glue and fix the box together, making sure that the handles on the outside, as shown in the diagram.
2. Make sure that all joints are pulled tight and that the box is square by measuring the two diagonals which should be equal.
3. Nail through the top of each joint, through A into B at a slight angle in order to avoid the rebate.
4. Fit the runners/castellated spacers in place by using gimp pins.
5. The top of the runners / castellated spacers should be just under the top of the box.
